

PLEASE SEPARATE TRASH & LEAVE AT DESIGNATED AREA FOR COLLECTION

Please create the following piles of trash so that collectors can load trucks for efficient routing.

- ❖ **SCRAP METAL:** guard rails, pipes, wheels, bicycle frames, refrigerators, shopping carts, hubcaps,
- ❖ **WOOD WASTE:** usually construction waste, lumber, wood crates, pallets, etc.
- ❖ **BULK PLASTIC ITEMS:** recycling bins, carts, toys, flower pots
- ❖ **TIRES:** bicycle tires, car tires, tractor tires
- ❖ **TRASH BAGS** with small types of litter and trash: paper, cups, plastic bags, dirty bottles, etc.

Different types of trash get trucked to **different places**. Separate trucks may be used to collect different types of items found during litter cleanups. Household type trash and bulky items like unusable furniture are currently hauled to a waste transfer facility in Durham where it is unloaded, compacted, and trucked to Sampson County (90 miles away) to landfill.

The Orange County Construction and Demolition (C&D) Landfill accepts debris resulting solely from construction, remodeling, repair, or the demolition of pavement, buildings or other structures, and inert debris including brick, block, and uncontaminated soils.

Recyclable metal, plastic, mattresses and tires can be (separately) recycled through our current recycling operations in Orange County, NC.

Please place separated trash at the agreed upon location, secure to prevent blow-away, and place where a large truck can easily access, but where it does not block traffic. THANK YOU!

-Over for litter cleanup tally-

ITEM (Add number for each item if you can!)	LOTS	SOME	NONE
Tires #			
Hubcaps, auto parts			
Used motor oil or fluids (describe & keep separate if fluid)			
Paint cans and/or paint (keep separate if liquid)			
Pipes (Please circle: Metal Clay Plastic)
