

Booker Creek Working Group

March 14, 2022 Agenda, 6-8 pm

Desired Outcomes

What would we like to see accomplished because of this meeting?

- Continued information gathering to respond to Mayor's Hemminger's questions:
 - **How to get the community engaged on their own properties with stormwater reduction?**
 - **How long do you think it will take to come back with short term and long term ideas?**
- Better connections with the large group
- Group conversations to explore possible recommendations

What guiding questions would we like to address?

- What ideas are promising and worth further consideration for our recommendations?
- What additional information do we need to help us develop our recommendations?
- How can we improve and evolve the organization of our meetings to help us be successful?

Agenda

Roll Call & Announcements: Pamela Schultz (10 minutes)

Proposed process to develop tentative recommendations for our report to the Town Council: John Morris (10 minutes)

Streambank stabilization project example (20 minutes)

[Video by Mitch Woodward](#) and a proposal for a demonstration project by Jeanette Bench.
