

Booker Creek Working Group

September 12, 2022 Agenda, 6-7:30 pm

Desired Outcomes

What would we like to see accomplished because of this meeting?

Group exploration of recommendations to address Mayor Hemminger's framing questions:

- Where is it flooding in our community and by how much? (in layman's terms - 6 inches, etc) how many homes, streets & businesses?
- What ideas can help reduce flooding during big storm events - and by how much?
- How to get the community engaged on their own properties with stormwater reduction
- How long do you think it will take to come back with short term & long-term ideas?
- What role do our existing bottomland forests play in mitigating large stormwater events?

Agenda

Roll Call & Announcements Pamela Schultz (5 minutes)

Working Group Timeline Update John Morris (10 minutes)

Reviewing new possible recommendations (30 minutes)

- For Chapel Hill to enter FEMA community rating system (Jeanette Bench)
- To Set Priorities for the Maintenance of Existing Stormwater Facilities in Chapel Hill (Jeanette)
- Utilize existing water bodies for flood storage (Pamela Schultz)

Considering full slate of recommendations (35 minutes)

- Review of previously endorsed recommendations
- Would you endorse this full slate?
- If not, what would you like to see so you could endorse?

Public Comment (10 minutes)

Adjourn
