

**SLIDE**

Slides have long been a playground staple and for good reason, they keep kids moving and having fun while they develop core strength and balance! The Velo™ Slide offers a fun, fast ride with a little extra drop that makes kids want to slide again and again.

**SERENITY SPOT**

Learn. Socialize. Sit. Relax. Play. Engage. All this and more are the purpose behind the creation of the Serenity™ Spot. Within a playspace sometimes a child, caregiver or parent needs a comfortable place to step away and still be part of the playspace.

**PLAYENSEMBLE®**

PlayEnsemble® brings a higher level of musical expression to communities around the world. As a universal experience that inspires everyone to create, music brings a sense of wonder to the play environment. Musical experiences aren't just play, they accelerate child development intellectually, socially and emotionally as well as enhance overall motor skills, language and literacy.

**PLAY VARIETY**

This design offers the perfect solution for a great playspace and ensures that the necessary and age-appropriate play components are included. With various slides, climbers and spinning events, kids will be able to enhance physical fitness while having fun playing.

**CLIMBING**

Climbing brings adventure and challenge to the playground while providing necessary developmental benefits such as balance, agility, upper and lower body strength and decision-making skills! When children climb, they develop confidence and take age appropriate risks that help build skills that will help them throughout their lives.

**COGNITIVE**

So many life skills are learned through play! Skills such as cognitive planning, mastering new concepts, problem solving and expression are developed naturally through play events like climbing, sliding and spinning.
