**2 PARCEL DATA**

**3 EXISTING SERVICES**

The parcel is bisected by a perennial stream with floodplain and an RCD zone, 150' wide horizontally from the top of each stream bank. The developable land includes approximately 7 acres between the stream and the south property line, with a smaller buildable area approximately 2.5 acres north of the stream buffer.

Slopes: The steepest slopes are in the stream buffer and RCD zones. The south developable area has slopes of 5-15% with the steepest area located where the new public street meets the property. The area north of the stream buffer has slopes of 5-10%.

Vegetation: Site is entirely wooded except for the electric transmission corridor.
